

Don't give people smuggling a chance!

Tips for truckers

SOCIAL CONTROL

- Park the truck on a public and well-lit place, so that it is visible from a distance.
- **THOROUGHLY** check the fabric, roof, tilt cord and locks of the vehicle.
- Avoid parking near forest edges or planted areas.
- Park the truck on the other side of the street or in another direction so as not to indicate that the United Kingdom or France is the destination.
